Coronavirus (COVID-19) Update

Dear Customer,

During this difficult time, I wanted to personally reach out to you. At Quantum Moving, the health and safety of our service professionals and customers is our top priority. We understand this can be a challenging time, so, I'd like to highlight the actions we're taking to ensure you can still relocate as safely as possible.

Keeping our Movers and Customers Healthy

We are dedicated to ensuring the health and safety of our staff and customers and slowing the spread of COVID-19 in our communities. Here are the steps we are taking to stay healthy and keep our work environments clean:

- Before entering a home, we ask customers if they've been exposed to COVID-19 or if they have any symptoms. If so, we would have to cancel the job.
- When visiting a home, we avoid handshakes and have no physical contact.
- The movers are equipped with N95 masks, nitrile gloves and hand sanitizer.
- Each truck is equipped with a hand soap and water wash station.
- Each truck is spray cleaned with disinfectant at the end of completing work daily.
- The movers are instructed to wash their hands after loading and again after unloading on every move and frequently throughout the day.

Limiting Physical Contact

Currently, the CDC encourages minimal direct contact.

- If we all practice keeping a safe social distance of about 6ft, we can all help to do our part to end this pandemic as soon as possible. We urge you to please take this seriously or the time it will take us to get past this pandemic will greatly increase. This is way more severe than the flu!
Thank you for your cooperation.

We can do this if we all pull together. Stay Safe and Healthy Everyone!
